

## Are you the one?

We are Eir Försäkring: an innovative, non-life insurance company! Our key concept is to be *digital*, *transparent* and to have *efficient processes*. This way, we challenge the established players in the insurance market and create a new solution. Just like the banks have been forced to open up towards third parties providers, we are aiming for “open insurance”.

Our goal for 2021 is to grow our team to twice the size, and we are already excited to get to know a bunch of new colleagues with mixed knowledge and experience! The pros of working at a growing company is the possibilities to form your role and to take on new challenges. Do you have a great commitment and want to feel passionate about what you spend your work hours with? Then it might be you whom we are looking for!

### **Who are you?**

We've built our insurance system with Haskell – are you a master of Haskell? Get in touch now!

Do you have a flair for numbers and processes? Great, we need to strengthen our controller-department.

Are you great at managing partner relationships? Do you want to continue your career within claims handling? Do you LOVE to give world-class customer support? Or, do you simply have deep knowledge within private insurance you would like to contribute with?

In short – we need to grow all parts of our organisation and we are looking for the right people who want to be part of our journey!

We are looking for someone communicative, flexible and who welcomes changes. You appreciate working at a high pace and to handle several tasks at once. It is natural for you to take on great responsibility and to run your projects independently. Furthermore, you are thorough, structured and have a sense for business. You have an open and honest communication and you're humble and unpretentious in your nature.

### **Who are Eir?**

At Eir, everyone is welcome! You will be part of an ambitious, committed and happy team who shares the ups and downs with our colleagues in the neighboring countries. We work tightly together to take the company to the next level. Something we have in common is that we are all crossing our fingers that we, very soon, will be able to meet more often at our office in central Stockholm.

**Sounds interesting?** Submit your application to [info@eirforsakring.se](mailto:info@eirforsakring.se) as soon as possible! We are processing applications continuously.
